

# Welcome to MLQA 2011

By Flemming Nielson

# MLQA 2011

- Third annual meeting of the ERCIM WG on **Models and Logics for Quantitative Analysis**.
- Theme on **continuous modeling & analysis techniques**.
- Organized by **Diego Latella, Jane Hillston, Flemming Nielson**.

# The Programme

09:30 - 09:45 Opening

09:45 - 10:30 **Jean-Yves Le Boudec**: ODEs and discrete simulation

10:30 - 11:00 Coffee Break

11:00 - 11:45 **Jane Hillston**: Stochastic process algebras and ODEs

11:45 - 12:30 **Luca Bortolussi**: On the Relationship between ODE, Simulation and Stochastic Process Algebras

12:30 - 14:00 Lunch (not included) & poster session

14:00 - 14:45 **Verena Wolf**: Stochastic Hybrid Analysis of Markov Population Models

14:45 - 15:30 **Josee Desharnais**: Approximation of continuous space systems and associated metrics and logics

15:30 - 16:00 Coffee Break

16:00 – 16:45 MLQA business meeting

16:45- 17:30 Thematic Small Working Group convened by Flemming Nielson: Hidden Markov Chains and the languages/logics.

18:00 – 20.00 Reception at Altes Kurhaus

# Practical Matters

- Please write your
  - name
  - affiliation
  - e-mail addresson the circulating list of attendees (for the benefit of ERCIM).
